Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 50. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

PEACE COMMISSION

It Will Sail From New York Tomorrow on the Campani.

SPECIAL CABINET MEETING

At Which the Commissioners Received Full and Final Instructions—Secrecy Maintained as to Their Nature, but It Is Said They Are Not Ironclad—Day's Statement.

Washington, Sept. 16.—The cabinet met in special session yesterday afternoon and did not adjourn until late. All united in the statement made after the meeting that they agreed to say nothing more of the result of the deliberations than that the peace commissioners had been fully instructed. Of the nature of these instructions they conveyed not a word. Each one pointed out that to do so would be extremely impolitic and would amount to arming the Spanish commissioners in advance against themselves. The peace commissioners who were approached on the subject made a similar response.

It was said that the commissioners were "fully instructed" and upon seeking a further explanation of this phrase it appeared that the cabinet had patiently gone over in the discussion with the commissioners every subject that in their opinion could be brought into the proceedings before the joint commission. On each of these the American commissioners were made acquainted with the views and wishes of the administration.

It is not to be understood from this that the commissioners go under ironclad and unchangeable instructions at all points. The peace commissioners are in no sense mere mouth pieces, but, having chosen with the greatest care and consideration, five men in whom the president feels that they are to be trusted with the interests of the United States.

At Paris the commissioners will meet General Merritt, fresh from Manila, and in addition they will have the benefit of a special report from Admiral Dewey. These will be of the greatest value for the commissioners are not acquainted with the Philippine question in detail and even the information that is to be acquired from the Spanish peace commissioners is not to be despised when it takes such an official form that it can be relied upon as to accuracy.

All the arrangements have been completed for the departure of the commission and its staff. Most of the party will leave Washington this afternoon for New York, but circumstances may detain some of the commissioners until the night train.

The Campani sails at 2 p. m. tomorrow and explicit instructions have been given to all of the members of the party as to being on board at that time. A number of stout cedar chests have been made to carry the books, pamphlets, typewritten papers, etc., which form a part of the American case. The chests are like a shallow steamer trunk, so that they may be shoved under the berth and thus be available on the passage over instead of going with the baggage in the hold of the steamer. This will permit considerable work on the trip and it is expected that the commissioners will hold meetings on ship board. They will go direct from Liverpool to London and there stop for a day's rest, then proceeding to Paris by the way of Dover and Calais.

Statement by Day. Washington, Sept. 16.—Secretary of State Day last night gave out the following statement with reference to the peace commission: "The members

Vanity in women is forgivable. It was Nature's intention that woman should be vain of her personal appearance, and the woman who fails of this fails of her full womanhood. No woman should be satisfied to have a tall, thin, sickly complexion. The remedy for these conditions does not lie in cosmetics. Skin disease is caused by impurities in the blood, and by nervous disorders due to weakness and disease of the distinctly feminine organism. Doctor Pierce's Golden Medical Discovery is the greatest of all known blood-purifiers. It not only drives all impurities from the bloodstream, but fills it with the rich, life-giving elements of the food. Dr. Pierce's Favorite Prescription acts directly on the delicate and important organs that bear the burdens of womanhood and motherhood. It makes them pure, strong, well and vigorous. A course of these two great medicines will transform a weak, sickly, nervous, despondent woman, who suffers from unsightly eruptions of the skin, into a healthy, happy, amiable companion, with a skin that is clear and wholesome. These medicines are made from herbs and roots, and contain no minerals of any description. They simply assist the natural processes of assimilation, secretion and excretion. Medicine dealers sell them. It is a druggist's business to give you, not to tell you, what you want.

"About four years ago," writes Thomas Harris, of Wakefield Station, Sussex Co., Va., "my daughter Helen was afflicted with eczema in a distressing form. Dr. Pierce's medicines cured her after all other remedies had failed." In sending for a free copy of Dr. Pierce's Common Sense Medical Adviser, enclose 21 one-cent stamps, to cover mailing only, if a paper-covered copy is desired, or 31 stamps for cloth-binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

of the peace commission, with the exception of Senator Gray, whose absence was due to his inability to withdraw as counsel in a case in which he was engaged some time before his appointment as one of the peace commissioners, have spent the greater part of the last two days in a free discussion of the duties with the discharge of which they have been entrusted by the president. Senator Gray, it is expected before sailing, will have a full conference with the president and his associates. At the very outset it will be made clear to the Spanish commissioners that, as in the case of the preliminary protocol, there can be no deviation from or modification of the demands made by the United States.

Dinner to Peace Commissioners. Washington, Sept. 16.—President McKinley gave a dinner at the white house to the members of the Spanish-American peace commission who are in the city.

Received No Reply From Washington. Madrid, Sept. 16.—The queen regent presided at the cabinet council late yesterday. Senor Sagasta, the premier, outlined the situation and said that the government had received no reply from Washington to its request for the repatriation of Spaniards in the Philippines. According to reports from Manila, one-third of the prisoners of General Aguinaldo had died of bad treatment. The peace commissioners will be appointed today.

General Officers to Be Mustered Out. Washington, Sept. 16.—The war department will soon take up the question of mustering out a considerable number of general officers of the volunteer army, including major generals and brigadiers, now that the volunteer forces have been reduced so largely. All regimental officers have gone out of service with their respective regiments, but the entire force of general officers still remains.

ARMISTICE VIOLATED.

Spaniards at Manzanillo Fire on a Cuban Supply Boat.

Santiago de Cuba, Sept. 16.—General Lawton has received information from a Cuban courier from Manzanillo that four days ago the Spaniards there violated the armistice by attempting to take possession of the Cuban vessel Fernando, that was bringing supplies for the Cuban army.

On board was a guard of 12 men. They were fired upon by Spaniards in the fort near the bay, one Cuban being killed. After which the boat was allowed to land. The Cubans dispatched a courier to General Lawton with a request that an armed force be sent to Manzanillo. This request will not be complied with, as Manzanillo is outside the territory embraced by the terms of capitulation.

Captain D. J. E. Farnhamfield, quartermaster, learned several days ago from Cubans that two rapid-fire guns formerly used by the Spaniards were concealed near the city. He succeeded in discovering their whereabouts. His informants fear Cuban resentment, as it is believed that the guns were hidden by members of the Cuban army.

One gun was found in a dilapidated house in the outskirts of the city. The other was where the Spaniards had evidently left it when they were routed from Purzon, in the vicinity of San Juan Hill.

It had been placed amid thick bushes and had been painted green, as a further protection against discovery. Probably this is the hitherto unlocated gun that did such havoc among the Second Massachusetts volunteers.

CAMP MEADE.

Thirty-Five Thousand Troops Expected There Within a Fortnight.

Camp Meade, Middletown, Pa., Sept. 16.—General S. M. B. Young of Pittsburgh has been assigned to the command of the First division of the Second army corps. He succeeds General J. P. S. Gobin, who returns to the brigade composed of the Eighth, Twelfth and Thirtieth Pennsylvania regiments.

The Pennsylvania militia came in yesterday afternoon and will be joined on Sunday by the Fifteenth Minnesota. Only two regiments have been assigned to the Third provisional division, but enough troops are expected here within the next 10 days to complete the division. A member of General Graham's staff said that there would be 35,000 troops in camp within a fortnight. How long they will remain is an open question, although it is doubtful if they will all get away before the middle of October. One division will be sent south to join General Fitzhugh Lee's army in Cuba.

Spanish Laborers Act.

Barcelona, Sept. 16.—The National Labor society has sent a petition to the government asking it to do everything possible to retain possession of the Philippines and to demand a preferential tariff in Cuba and Porto Rico for Spanish goods.

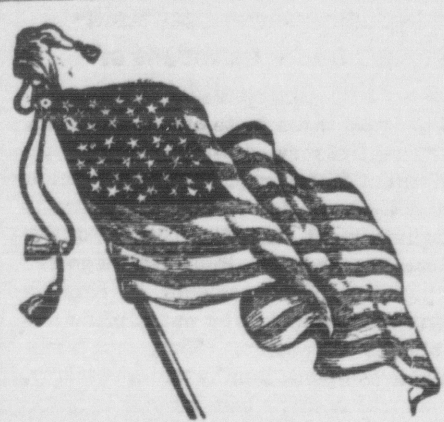

Captain Bob Evans Assigned.

Washington, Sept. 16.—Secretary Long has decided to assign Captain Bob Evans to duty as a member of the naval inspection board and he will assume his new duties after a brief vacation.

DORA MARRIES AGAIN

General Clay's Child Wife Takes Up Herself Another Husband.

Lexington, Ky., Sept. 16.—Dora Richardson Clay, the divorced "child wife" of Cassius Marcellus Clay, was married today at Pinkard, Woodford county, to Riley Brock, an employee in a sawmill at Valleyview. The marriage was solemnized in Dora's home—the one which was purchased for her by General Clay. It was generally believed that Dora would marry the handsome Willie Bryant, over whom she had so much trouble with the "Lion of White Hall," but she tossed Willie overboard about two months ago and took up with Brock, who is 24 and handsome.

HIGH IN THE AIR

Second Highest Balloon Ascention Has Just Been Made in England.

London, Sept. 16.—Next to the highest balloon ascention on record was made here yesterday afternoon from the Crystal Palace, Sydenham, by Stanley Spencer, the well known aeronaut and Dr. Benson. The balloon, which was inflated with pure hydrogen and has a capacity of 56,500 cubic feet, attained an altitude of 27,500 feet.

At a height of 25,000 feet the air was so rarified that the occupants of the car were compelled to breathe compressed oxygen by tubes. The temperature was 61 degrees below the freezing point. The atmosphere was clear and the coast distinctly visible. The balloon finally descended near Romford, in Essex.

Railroad Consolidation.

Chicago, Sept. 16.—It has been decided at a meeting of the stockholders of the Indiana, Illinois and Iowa railroad of Illinois, and the Indiana, Illinois and Iowa railway of Indiana, to consolidate the two companies and take up the old securities and issue new securities. The amount agreed upon was \$3,000,000 in 5 per cent mortgage bonds. Of this sum \$2,500,000 will cover the consolidated system, and the remaining \$500,000 will be used for extension and betterments.

Understood to Have Declined.

Washington, Sept. 16.—Although no official statement is made to that effect, it is understood from an authoritative source that Senator Hoar has practically declined to accept the post of ambassador to Great Britain, just vacated by Colonel Hay.

Congressman Pinney has withdrawn as a candidate for governor of New Jersey. The Algonquin clubhouse of Boston has been sold under foreclosure of mortgage for \$141,000. Two hundred traveling freight agents from Ohio, Michigan, Indiana and Illinois roads are in session at Toledo.

The National Colored Bldg. has decided to enter the missionary field in Cuba immediately.

GEN'L. GOMEZ FLOPS

Has Joined the "Absolute Independence or Nothing" Party of Cuba.

WIDESPREAD AGITATION

Against Annexation or a United States Protectorate is the Predominate Situation on the Island—Fear American Competition in All Branches of Business—Expected High Prices for Property.

Havana, Sept. 16.—The predominant feature of the situation is the feverish and widespread agitation of the Cubans in favor of the absolute independence of the island at all costs.

Manifestos are being circulated inviting the co-operation of Spanish residents and merchants to this end, and pointing out that either annexation or an American protectorate would mean death to all trade with Spain in a couple of years.

General Maximo Gomez, who a fortnight ago, was counselling harmony and patience, now expresses himself as strongly in favor of "absolute independence or nothing." He says the Spanish element cannot afford to delay uniting with the Cubans, as a "necessary basis for the establishment of conditions that will forbid and prevent the United States grabbing and taking easy advantage of the treasure both Spaniards and Cubans have fought for at an expense of rivers of blood on each side."

General Gomez says, if report speaks truly, that "those who fear independence belong to the same family of cowardly curs who fled from Havana at the first rumour of bombardment."

These he declares are, however, a minority; and, to quote him further, "almost the entire Spanish population remains, protecting their homes and defying the dangers of war and will now remain to unite their efforts with those of the Cuban party, working together with the Cubans for the development of the island and the return of prosperity."

How far the influence of the party agitating for Cuban independence may extend it is at present difficult to estimate, but the fact is, its agents are working like beavers. Some former sympathizers with the annexation movement are to be found today in the ranks of the independence movement.

This violent impetus given to the agitation for independence is the result, apparently, of the arrival of the Resolute, or rather of the arrival of Mr. Porter and the examination he is making into tariffs, municipal taxation and other matters of internal government which the Cubans had expected to handle and administer themselves.

Absolute Freedom or a Fight to the Death. Mr. Porter's operations are viewed with suspicion by an important section of the Cubans. They insist upon absolute freedom, unrestrained liberty or a fight to the death.

One reason why many Spaniards who at first favored annexation have changed their opinion is fear of competition by American rivals as storekeepers, hotel managers and restaurateurs. They are afraid the Americans, instead of coming to buy out their establishments at fabulous prices, based upon the old Spanish duties, will open shops next door, import goods at low duties under the new regime, ruin their business and reduce them to poverty.

Exactly the same spirit prevails among the planters, especially the smaller ones, who had hoped to sell at good prices the old French and Belgian machinery for which they paid dear and imported under excessive duties. They realize that the American syndicates will bring American machinery, much cheaper and paying practically no duties, establish a large central market, close theirs and push them to the wall.

The deductions seem to be this: With Cuba independent, no foreign capital and no competition; with Cuba under American rule, a competition against which the Cubans would not have the energy or the power to succeed.

TO A LIMB.

Body of a Man Found Near Rockford, Ill.

Rockford, Ill., Sept. 16.—The body of a man was found hanging to a limb of a tree eight miles east of this city, and doctors say it must have been swinging in the wind and weather since Aug. 30. Indications point to suicide, as the nose was made of strips of handkerchief and other pieces of cloth. The man wore a suit of light clothing. From papers found on the body the remains are supposed to be those of James Cross of Toledo, O.

HANGED HIMSELF

Father's Grief Over His Son's Death Causes Him to Take His Life.

Danville, Ill., Sept. 16.—John N. Seacare, a prominent citizen and member of the school board, has committed suicide by shooting. He was found in the barn by a neighbor. His only son was found dead in a bathtub about two weeks ago, which, it is thought, endangered the old gentleman and caused him to take his life.

South Carolina Election.

Columbia, S. C., Sept. 16.—The returns in the gubernatorial contest are practically completed. Out of a total vote of 65,297, Governor Elbert's majority over Featherstone, Prohibitionist, has grown to 3,437.

GOOD ROADS

The National Road Parliament to Meet at Omaha, Oct. 8.

Washington, Sept. 16.—Martin Dodge, director of the office of road inquiry, United States department of agriculture, acting on behalf of the president of the national road parliament, gives notice that the parliament will convene in the auditorium of the Trans-Mississippi exposition at Omaha, Oct. 8. The objects of the meeting are to awaken and promote a general interest in the improvement of public roads, discuss the best methods of building and maintaining them and to promote good roads legislation.

The governors of the various states, the state and local road improvement associations and societies, the boards of trade and chambers of commerce, the League of American Wheelmen and all other bodies interested in the subject of good roads are invited to send representatives.

ANGEL INTERVIEWED

Says the Powers Must Act Vigorously in Crete—The Sultan's Prestige.

London, Sept. 17.—The papers here publish an interview with the retiring United States minister to Turkey, Dr. James B. Angell, who is a passenger on the White Star line steamer Teutonic, for New York.

Dr. Angell expressed somewhat despondent views as to the condition of Crete. "The powers," he said, "must act vigorously. In any event they will find they have hard work before them. The sultan is an acute and determined man, who has acquired extraordinary prestige with his people since the Turkish-Grecian war. Turkey will desperately resist giving up Crete. America has no interests there save those of humanity."

MURDERED.

Woman Kills a Streetcar Man and His Child and Suicide.

Louisville, Sept. 16.—Joseph F. Villier, age 26, a streetcar motorman, his 2-year-old child and a woman named Nellie McGuffin were found dead in a room in the Enterprise hotel. From notes left by the woman it was learned that she had first given Villier and his child morphine in sherry wine, but, fearing this would not be effective, had shot Villier through the right temple and then turned the revolver upon herself, death being instantaneous in each case. The child was already dead from the effects of the drug. Villier was a widower, the child being that of his late wife. The woman was a domestic who had once been employed by Villier.

NOT EXAGGERATED

Real Extent of the Havoc Wrought by West Indies Hurricane Unknown.

London, Sept. 16.—The dispatches received at the colonial office from the British authorities in the West Indies indicate, as a whole, that the earlier reports of the havoc wrought by the hurricane were not exaggerated. They show widespread devastation.

Owing to the breakdown of the telegraph and telephone systems, the real extent of the disaster is still unknown, but financial aid is required to meet the distress.

Fatal Result of a Runaway.

Maysville, Ky., Sept. 16.—Mrs. Nathan Wheatley was thrown from a buggy in a runaway near Sardis, this county, and almost instantly killed. Her husband was slightly injured, but her 6-month-old babe escaped unhurt. They were on their way to a funeral when the harness broke, causing the distressing fatality.

Horses, Hogs and Sheep Cremated.

Richmond, Ind., Sept. 16.—A large barn on the farm of Joseph King was struck by lightning yesterday and burned. A large quantity of farm products were consumed, and several horses, hogs and sheep were cremated.

Killed in an Elevator.

Omaha, Sept. 16.—George E. Cheney, a well known banker of Crete, Neb., walked into the elevator shaft at the Drexel hotel and was killed by the fall. The elevator conductor had gone up, neglecting to close the door.

B. C. Lett, of Hamilton township, is a candidate as a republican for sheriff of Jackson county on the fusion ticket to be nominated September 17th.

THERE seems to be little doubt about the nomination of Colonel Roosevelt as governor of New York.

THERE is one thing to be said in favor of Leader Joe Bailey of the Democratic minority. Under his astute management it will continue to be a minority.

The majority of the next House of Representatives will not be composed of men who shouted to bring on the war with Spain and then voted to impede its progress.

SINCE so many provisional governments and self-styled republics are springing up in Cuba it seems doubly fortunate that the United States did not begin by recognizing one that could not be found.—Journal.

THE republicans of Indiana are just beginning a campaign that will result in another triumphant victory for the party in November. The people have learned to appreciate republican control in state and nation.

THE democratic politicians never expected to be satisfied with the conduct of the war. They were not satisfied with the result of the civil war. Their dissatisfaction however is their chief characteristic.

IF THERE is any religious discrimination in Columbus that is not permitted to worship in that city such denomination will be welcomed to Seymour where the constitution of the United States which guarantees religious freedom is in full force.

THE middle-of-the-road Populists have at last verified the charge made by the Republican managers in 1896 that they were not in favor of free silver, but were working for the issue of fiat paper currency. Now they have shown their purpose in the platform just published. There is not much hope for the white metal in what they say, but all hope seems to linger around the full legal-tender greenback, once known to be worth but 34 cents on the dollar.

WE HAVE heard the soldiers of the civil war tell of their hardships but we have never heard them complain of their government. They went into the army and accepted the hardships as a result of the war and camp life. This patriotic spirit of the Union soldier has been most commendable, and has done more than anything else to give him the place of honor that he has held for thirty years. To be sure the democratic party in 1862 and in 1864 complained of Lincoln as it is now complaining of McKinley, but the soldiers resented it. We can not believe that the soldiers now returning from the Cuban war are less patriotic. We believe when they return to their homes they will resent the unpatriotic cry of the democratic partisans, as the Union soldier resented the same thing in 1864.

POLITICAL BREWERS.

Hon. Albert J. Beveridge will open the campaign in Marion county tonight.

Isaac Smith, of Freetown, candidate for sheriff, was here today in the interest of the candidacy.

Tonight at 7:30 o'clock at Armory Hall delegates to the county convention will be selected. Let there be a large attendance.

Hon. W. D. Bynum has resigned the chairmanship of the sound money democrats' national organization, but has not surrendered to the free silver forces.

A North Vernon special says that a petition is being circulated in Jennings county requesting the State Board of Election Commissioners to place on the ticket the name of a Prohibition candidate for Congress in the Fourth congressional district. The petition contains the names of several ardent Democrats, and a Democratic scheme is evidently on foot to get the name of a Prohibition candidate on the ticket, with a view of furthering the interests of Representative Francis M. Griffith. The holder of the petition stated that similar petitions were being circulated in each county of this district.

THE sentiment that prevails here and in nearly every township of the county is against the "official" ring, that has dominated the affairs of Jackson county.

THE position taken by the Seymour News is not in accord with the best interest of the taxpayers of the county. The sudden conversion of our esteemed contemporary certainly can not be regarded as miraculous.

Every citizen of Seymour and Jackson township should, if possible, be at the township convention tonight and take part in the selection of delegates to the county convention to be held here tomorrow.

Redding Township Convention.—There were over a hundred in attendance at the Redding township convention this afternoon. W. H. Shields was the chairman and W. H. Rapp, secretary. They selected a full quota of delegates for the convention tomorrow.

Goes to Jennings.—The suit of Ross Jernell against the city has been venue to Jennings county on the motion of City Attorney Lewis.

Farmer Payment.—The REPUBLICAN received a letter today from Dr. M. F. Gerrish, a assistant surgeon of the 161st Indiana, now at Panama Park, in which he speaks of the health and welfare of the Indiana soldiers, who bear the distinction of being the banner regiment of the 7th army corps. The health of the boys of the 161st is being carefully guarded.

DEATH.—The babe of Rome Mitchell died Thursday night at 10 o'clock, September 15, with whooping cough, aged one year.

A four-year-old son of E. Mathews, of Newry, died at 8 o'clock Thursday night, September 15, 1898, of diphtheria.

A Highly Priced Picture.—J. D. Thompson, who served through the civil war in the 39th Indiana Infantry, and 8th Indiana cavalry and was commissioned first lieutenant has a picture of himself and Geo. D. Wriggles, 2nd lieutenant, taken at Indianapolis in April 1864, when they were home on a furlough. Mr. Thompson prices the picture very highly. Although he had served three years in the war he was but 19 years of age and was first lieutenant of his company. He was six feet, an inch and three quarters in height, but the second lieutenant as shown in this picture was six feet and three inches tall. Peter Taskey, of this city is another one of the tall men, who served in the same company.

C. Hornady, of McEwen, Kans., who attended the G. A. R. encampment at Cincinnati and has since visited the home of his boyhood in Ohio, was here today. Before going home he will visit old friends at Hope where he resided when he enlisted in the 67th Indiana during the civil war.

AN ECONOMICAL ADMINISTRATION

A Statement Showing How the Tax-payers of Indiana Have Profited by Judicious Business Methods Under Directions of Republican Officials.

There are three state offices that turn into the treasury of the people a large amount of fees, a great portion of which under Democratic rule and Democratic juggling went into the pockets of the officers themselves. Four years ago the people stopped the system of officials getting rich quickly by putting the Republicans in power. They said a reasonable compensation by straight salary, about which there can be no twisting and turning of legal phraseology, is enough. That is now the law, and under it every cent of collections from whatever source is paid into the state treasury, and the officers receive no more than their salaries, which were fairly increased in a small degree to offset their deprivation of fees. Time and again the people asked Democratic legislatures to do this for them. However, it was not until 1891 that they made anything like an attempt to enact a fee and salary law, and that attempt was one to do an apparent good that Democratic officials elected a few months before, but all of whom had not as yet gone into office, might get rich through the old way of retaining a large per cent of collections for their own use and benefit.

The officers referred to in this connection are those of secretary of state, auditor of state and attorney general. By Democratic favor at the expense of the taxpayer each got a small salary and plenty of fees, by Republican justice each gets a reasonable salary and no possible chance to pocket 1 cent of fees. What is the result? The getting rid of an abuse that the people long groaned over, and by which men went into office poor or comparatively well-to-do and went out of office with pockets full of the greenbacks that Republican officials are turning into the state treasury, where they belong.

There is nothing like comparison to reach the meat of a proposition that it is better to pay an official a good straight salary than to pay him a small salary with the privilege of appropriating a per cent on everything that permits the charging of a fee. When final times prevailed in Democratic days for state officers the secretary of state's salary was only \$3,500. That is what the fee and salary law enacted by a Democratic legislature said it should be, but it did better by that officer than the casual reader knows. The law, after making a pretensions show of reforming an evil by saying that the fees and amounts taxed in the secretary of state's office shall not belong to or be the property of that officer, but shall belong to and be the property of the state, comes down to business in making things right with the officer. It did it in this way, but the privilege occurred in a very obscure section and was likely to be overlooked by everyone except the secretary of state. A clause in the section permitted that officer to retain for his services for making the prescribed collections 10 per cent, "and the same per cent upon all other fees and charges collected under this or any other law." So the secretary of state had no cause to mourn the reform spirit that raised his salary at \$3,500 and allowed him to collect a 10 per cent fee for his own profit on everything that came into his office. The same section applied to the auditor of state.

This law was supposed to do away with the abuses of retaining fees under the old system, but just before it was enacted Democratic state officers had been elected. Democratic legislators did not think it right to subject them to sacrifice of a single penny they expected to get when they became candidates, so as far as the state officers were concerned they tacked onto the law a section that the officers elected in 1890 "shall not be subject to the provisions of the act during the time he holds his term of office" and, further, "he shall receive the compensation now prescribed by law the same as if this act had not been passed."

The secretary of state, auditor of state and attorney general of that time were thus richly endowed, and neither is now complaining of hard times. It was a good thing they had, but the Republicans wiped it out in the interest of the taxpayer.

An example is given: The last year of his office the last Democratic attorney general was paid altogether \$33,139, of which \$2,500 was salary, the remainder being fees. That was a very close average of what he received each year of his two terms of four years, making in all about \$132,550. When the Republican incumbent goes out of office in November he will have received only his straight salary of \$7,500 a year, or \$30,000 in all, a difference in favor of Republican economy of more than \$100,000.

The last Democratic secretary of state and auditor of state had average yearly compensations in fees alone of about \$12,000 and \$25,000 respectively. When the Republican incumbent of the latter office retires next January he will have drawn from the state treasury \$30,000 as four years' salary. He will not have made a dollar more out of the office. His Democratic predecessor got \$116,000 in four years from fees and salary. There, too, is a big saving to the people of \$86,000. The Republican secretary of state will go out in January, 1899, after a 4-years' service, with only his salary of \$6,500 a year, or \$26,000 in all, to compensate him, and the Democrat that was in the office before him got out of it altogether about \$30,000, a saving by the Republicans of \$34,000.

Summarized, \$230,000 has been saved to the state treasury through these three offices in fees and salaries. That is the kind of government the Republicans have given the people of Indiana.

Too Hasty a Honeymoon.—In the Alps the other day a bride lost her footing and fell over a precipice; the husband immediately jumped after her. This shows the folly of taking a honeymoon tour immediately after marriage. If that couple had been married a year or two, one life would have been saved.—Times Herald.

Never was there a season more propitious for advertising than this. Make the tempora thing permanent by exploiting the fact that your goods are a little better and a little cheaper than your competitors; that where it is convenient to buy now you will make it convenient to trade always. Such a state of affairs has been the turning point in the history of many a business venture, and the man who has foresight enough, then and there, when money is easy, and fickle fortune dallies playfully with him, to emblazon his firm's name and his firm's goods on the eager horde of consumers, has turned a fleeting benefit into a permanent trade that must logically lead to steadily increasing success.—W. P. Mayer, in The Nation's Industrial Review.

Robbed the Grave.—A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition my skin was almost yellow, eyes sunk in and hot, tired, aching feet. I and tongue costed, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store."

Whereas a majority of the democratic voters of Jackson county have repudiated a so called democratic primary election and the nominees of said primary election, which was in its rules and regulations governing said primary, so unfair, unjust and undemocratic that more than three-fourths of the democratic voters of the county refused to recognize the said primary or participate in said primary election, and

Whereas the republican county central committee at a regular and full meeting of the committee, held in Seymour on the 18th day of August, 1898, declared themselves as willing to affiliate with all voters of Jackson county who were opposed to the so called democratic ticket and appointed a committee of five members of their county committee to confer and arrange with a like committee of five democrats, as to time, manner, etc., of holding a convention of the independent voters of Jackson county, therefore be it resolved by this joint committee of five democrats and five republicans:

To Have a Honeymoon.

In the Alps the other day a bride lost her footing and fell over a precipice; the husband immediately jumped after her. This shows the folly of taking a honeymoon tour immediately after marriage. If that couple had been married a year or two, one of them would have been saved.—Times Herald.

Samuel Wray, of the 159th Indiana Volunteers returned today to his home at Kurtz on a thirty days furlough. He has been very sick but is much better.

The Elish Milling Company and some other local grain dealers are paying two cents more per bushel for wheat today than yesterday. There was quite a flurry in the Chicago market yesterday.

Never was there a season more propitious for advertising than this. Make the temporary thing permanent by exploiting the fact that your goods are a little better and a little cheaper than your competitor's, that where it is convenient to buy now you will make it convenient to trade always. Such a state of affairs has been the turning point in the history of many a business venture, and the man who has foresight enough, then and there, when money is easy, and fickle fortune dallies playfully with him, to emblazon his firm's name and his firm's goods on the eager hordes of consumers, has turned a fleeting benefit into a permanent trade that must logically lead to steadily increasing success.—W. P. Mayer, in The Nation's Industrial Review.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition my skin was almost yellow, eyes sunk, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store.

Badly Scalded.
Yesterday evening, Walter, the six-year-old son of William Bauermeister, in company with Ben Parker, who is a little older, went around to the Woolen mill to pick up some straps that are frequently thrown out there. While back of the mill Walter stepped into a vat of almost boiling water, which serves as a kind of reservoir and catch basin for water from the dying department of the mill. He went almost to his waist burning his lower limbs very badly. His left arm was also severely burned. He was lifted out of the vat by the Parker boy and taken to his home. Dr. Kyte was summoned and rendered all the aid possible, yet the little fellow suffered intense pain but it is believed he will recover. He has a high fever today.

"Francis Marion Lee."

Major C. W. Lee, republican candidate for congress in this district, passed up to Indianapolis last night. He expects to be in this county possibly the greater part of the coming week. The major relates a funny incident that occurred a few days ago at an Old Settlers' meeting at Marblehead, in Ripley county. Both Mr. Lee and Mr. Griffith were present to speak. It came Mr. Griffith's turn first, and Collins Wildman chairman of the meeting, introduced Mr. Griffith as "Francis Marion Lee." Without noticing his error he sat down and Mr. Griffith went on with his speech.—Columbus Times.

Robertson, to Indiana University. Miss Ella Davison goes to Oxford, Ohio, and Miss Ruth Core to Cleveland.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Badly Scalded.
Yesterday evening, Walter, the six-year-old son of William Bauermeister, in company with Ben Parker, who is a little older, went around to the Woolen mill to pick up some straps that are frequently thrown out there. While back of the mill Walter stepped into a vat of almost boiling water, which serves as a kind of reservoir and catch basin for water from the dyeing department of the mill. He went almost to his waist burning his lower limbs very badly. His left arm was also severely burned. He was lifted out of the vat by the Parker boy and taken to his home. Dr. Kyte was summoned and rendered all the aid possible, yet the little fellow suffered intense pain but it is believed he will recover. He has a high fever today.

"Francis Marion Lee."
Major C. W. Lee, republican candidate for congress in this district, passed up to Indianapolis last night. He expects to be in this county possibly the greater part of the coming week. The major relates a funny incident that occurred a few days ago at an Old Settlers' meeting at Marblehead, in Ripley county. Both Mr. Lee and Mr. Griffith were present to speak. It came Mr. Griffith's turn first, and Collins Wildman chairman of the meeting, introduced Mr. Griffith as "Francis Marion Lee." Without noticing his error he sat down and Mr. Griffith went on with his speech.—Columbus Times.

Robertson, to Indiana University. Miss Ella Davison goes to Oxford, Ohio, and Miss Ruth Core to Cleveland.

Deafness Cannot be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by (catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

M. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

PEACE COMMISSION

It Will Sail From New York Tomorrow on the Campani.

SPECIAL CABINET MEETING

At Which the Commissioners Received Full and Final Instructions—Secrecy Maintained as to Their Nature, but It Is Said They Are Not Ironclad—Day's Statement.

Washington, Sept. 16.—The cabinet met in special session yesterday afternoon and did not adjourn until late. All united in the statement made after the meeting that they agreed to say nothing more of the result of the deliberations than that the peace commissioners had been fully instructed. Of the nature of these instructions they conveyed not a word. Each one pointed out that to do so would be extremely impolitic and would amount to arming the Spanish commissioners in advance against themselves. The peace commissioners who were approached on the subject made a similar response.

It was said that the commissioners were "fully instructed" and upon seeking a further explanation of this phrase it appeared that the cabinet had patiently gone over in the discussion with the commissioners every subject that in their opinion could be brought into the proceedings before the joint commission. On each of these the American commissioners were made acquainted with the views and wishes of the administration.

It is not to be understood from this that the commissioners go under ironclad and unchangeable instructions at all points. The peace commissioners are in no sense men of the greatest care and consideration, five men in whom he puts the most explicit confidence, the president feels that they are to be trusted with the interests of the United States.

At Paris the commissioners will meet General Merritt, fresh from Manila, and in addition they will have the benefit of a special report from Admiral Dewey. These will be of the greatest value for the commissioners are not acquainted with the Philippine question in detail and even the information that is to be acquired from the Spanish peace commissioners is not to be despised when it takes such an official form that it can be relied upon as to accuracy.

All the arrangements have been completed for the departure of the commission and its staff. Most of the party will leave Washington this afternoon for New York, but circumstances may detain some of the commissioners until the night train.

The Campani sails at 2 p. m. tomorrow and explicit instructions have been given all of the members of the party as to being on board at that time. A number of stout cedar chests have been made to carry the books, pamphlets, typewritten papers, etc., which form a part of the American case. The chests are like a shallow steamer trunk, so that they may be shoved under the berths and thus be available on the passage over instead of going with the baggage in the hold of the steamer. This will permit considerable work on the trip and it is expected that the commissioners will hold meetings on ship board. They will go direct from Liverpool to London and there stop for a day's rest, then proceeding to Paris by the way of Dover and Calais.

Statement by Day. Washington, Sept. 16.—Secretary of State Day last night gave out the following statement with reference to the peace commission: "The members

Vanity in women is forgivable. It was Nature's intention that woman should be vain of her personal appearance, and the woman who fails of this fails of her womanhood. No woman should be satisfied to go through the world with the face of a mask. Doctor Pierce's Golden Medical Discovery is the greatest of all known blood-purifiers. It not only drives all impurities from the life-stream, but fills it with the rich, life-giving elements of the food. Dr. Pierce's Favorite Prescription acts directly on the delicate and important organs that bear the burdens of widowhood and motherhood. It makes them pure, strong, well and vigorous. It transforms a weak, sickly, nervous, despondent woman, who suffers from unsightly eruptions of the skin, into a healthy, happy, amiable and wholesome. These medicines are made from herbs and roots, and contain no minerals of any description. They simply assist the natural processes of assimilation, secretion and excretion. Medicine dealers sell them.

It is a druggist's business to give you, not to tell you, what you want. "About four years ago," writes Thomas H. Harkness of Wakefield Station, Sussex Co., Va., "my daughter Helen was afflicted with eczema in a distressing form. Dr. Pierce's medicines cured her after all other remedies had failed." of the peace commission, with the exception of Senator Gray, whose absence was due to his inability to withdraw as counsel in a case in which he was engaged some time before his appointment as one of the peace commissioners, have spent the greater part of the last two days in a free discussion of the duties with the discharge of which they have been entrusted by the president. Senator Gray, it is expected before sailing, will have a full conference with the president and his associates. At the very outset it will be made clear to the Spanish commissioners that, as in the case of the preliminary protocol, there can be no deviation from or modification of the demands made by the United States.

Dinner to Peace Commissioners. Washington, Sept. 16.—President McKinley gave a dinner at the white house to the members of the Spanish-American peace commission who are in the city.

Received No Reply From Washington. Madrid, Sept. 16.—The queen regent presided at the cabinet council late yesterday. Senor Sagasta, the premier, outlined the situation and said that the government had received no reply from Washington to its request for the repatriation of Spaniards in the Philippines. According to reports from General Aguinaldo had died of bad treatment. The peace commissioners will be appointed today.

General Officers to Be Mustered Out. Washington, Sept. 16.—The war department will soon take up the question of mustering out a considerable number of general officers of the volunteer army, including major generals and brigadiers, now that the volunteer forces have been reduced so largely. All regimental officers have gone out of service with their respective regiments, but the entire force of general officers still remains.

ARMISTICE VIOLATED.

Spaniards at Manzanillo Fire On a Cuban Supply Boat.

Santiago de Cuba, Sept. 16.—General Lawton has received information from a Cuban courier from Manzanillo that four days ago the Spaniards there violated the armistice by attempting to take possession of the Cuban vessel Fernando, that was bringing supplies for the Cuban army.

On board was a guard of 12 men. They were fired upon by Spaniards in the fort near the bay, one Cuban being killed. After which the boat was allowed to land. The Cubans dispatched a courier to General Lawton with a request that an armed force be sent to Manzanillo. This request will not be complied with, as Manzanillo is outside the territory embraced by the terms of capitulation.

Captain D. J. E. Farnhamfield, quartermaster, learned several days ago from Cubans that two rapid-fire guns formerly used by the Spaniards were concealed near the city. He succeeded in discovering their whereabouts. His informants fear Cuban resentment, as it is believed that the guns were hidden by members of the Cuban army.

One gun was found in a dilapidated house in the outskirts of the city. The other was where the Spaniards had evidently left it when they were routed from Purizon, in the vicinity of San Juan Hill.

It had been placed amid thick bushes and had been painted green, as a further protection against discovery. Probably this is the hitherto unlocated gun that did such havoc among the Second Massachusetts volunteers.

CAMP MEADE.

Thirty-Five Thousand Troops Expected There Within a Fortnight.

Camp Meade, Middletown, Pa., Sept. 16.—General S. M. B. Young of Pittsburg has been assigned to the command of the First division of the Second army corps. He succeeds General J. P. S. Gobin, who returns to the brigade composed of the Eighth, Twelfth and Thirtieth Pennsylvania regiments.

The Thirtieth Michigan came in yesterday afternoon and will be joined on Sunday by the Fifteenth Minnesota. Only two regiments have been assigned to the Third provisional division, but enough troops are expected here within the next 10 days to complete the division.

A member of General Graham's staff said that there would be 35,000 troops in camp within a fortnight. How long they will remain is an open question, although it is doubtful if they will all get away before the middle of October. One division will be sent south to join General Fitzhugh Lee's army in Cuba.

Spanish Laborers Act.

Barcelona, Sept. 16.—The National Labor society has sent a petition to the government asking it to do everything possible to retain possession of the Philippines and to demand a preferential tariff in Cuba and Porto Rico for Spanish goods.

Captain Bob Evans Assigned.

Washington, Sept. 16.—Secretary Long has decided to assign Captain Bob Evans to duty as a member of the naval inspection board and he will assume his new duties after a brief vacation.

HIGH IN THE AIR

Second Highest Balloon Ascention Has Just Been Made In England.

London, Sept. 16.—Next to the highest balloon ascension on record was made here yesterday afternoon from the Crystal Palace, Sydenham, by Stanley Spencer, the well known aeronaut and Dr. Berson. The balloon, which was inflated with pure hydrogen and has a capacity of 56,500 cubic feet, attained an altitude of 27,500 feet.

At a height of 25,000 feet the air was so rarified that the occupants of the car were compelled to breathe compressed oxygen by tubes. The temperature was 61 degrees below the freezing point. The atmosphere was clear and the coast distinctly visible. The balloon finally descended near Romford, in Essex.

Railroad Consolidation.

Chicago, Sept. 16.—It has been decided at a meeting of the stockholders of the Indiana, Illinois and Iowa railroad of Illinois, and the Indiana, Illinois and Iowa railway of Indiana, to consolidate the two companies and take up the old securities and issue new securities. The amount agreed upon was \$3,000,000 in 5 per cent mortgage bonds. Of this sum \$2,500,000 will cover the consolidated system and the remaining \$500,000 will be used for extension and betterments.

Has Joined the "Absolute Independence or Nothing" Party of Cuba.

WIDESPREAD AGITATION

Against Annexation or a United States Protectorate Is the Predominate Situation on the Island—Fear American Competition In All Branches of Business—Expected High Prices For Property.

Havana, Sept. 16.—The predominant feature of the situation is the feverish and widespread agitation of the Cubans in favor of the absolute independence of the island at all costs.

Manifestos are being circulated inviting the co-operation of Spanish residents and merchants to this end, and pointing out that either annexation or an American protectorate would mean death to all trade with Spain in a couple of years.

General Maximo Gomez, who a fortnight ago was counselling harmony and patience, now expresses himself as strongly in favor of "absolute independence or nothing." He says the Spanish element cannot afford to delay uniting with the Cubans, as a "necessary basis for the establishment of conditions that will forbid and prevent the United States grabbing and taking easy advantage of the treasure both Spaniards and Cubans have fought for at an expense of rivers of blood on each side."

General Gomez says, if report speaks truly, that "those who fear independence belong to the same family of cowardly curs who fled from Havana at the first rumor of bombardment."

These he declares are, however, a minority; and, to quote him further, "almost the entire Spanish population remains, protecting their homes and defying the dangers of war and will now remain to unite their efforts with those of the Cuban party, working together with the Cubans for the development of the island and the return of prosperity."

How far the influence of the party agitating for Cuban independence may extend it is at present difficult to estimate, but the fact is, its agents are working like beavers. Some former sympathizers with the annexation movement are to be found today in the ranks of the independence movement.

This violent impetus given to the agitation for independence is the result, apparently, of the arrival of the Resolute, or rather of the examination he is making into tariffs, municipal taxation and other matters of internal government which the Cubans had expected to handle and administer themselves.

Absolute Freedom or a Fight to the Death. Mr. Porter's operations are viewed with suspicion by an important section of the Cubans. They insist upon absolute freedom, unrestrained liberty or a fight to the death.

One reason why many Spaniards who at first favored annexation have changed their opinion is fear of competition by American rivals as storekeepers, hotel managers and restaurateurs. They are afraid the Americans, instead of coming to buy out their establishments at fabulous prices, based upon the old Spanish duties, will open shops next door, import goods at low duties under the new regime, ruin their business and reduce them to poverty.

Exactly the same spirit prevails among the planters, especially the smaller ones, who had hoped to sell at good prices the old French and Belgian machinery for which they paid dear and imported under excessive duties. They realize that the American syndicates will bring American machinery, much cheaper and paying practically no duties, establish a large central market, close theirs and push them to the wall.

The deductions seem to be this: With Cuba independent, no foreign capital and no competition; with Cuba under American rule, a competition against which the Cubans would not have the energy or the power to succeed.

TO A LIMB.

Body of a Man Found Near Rockford, Ill.

Rockford, Ill., Sept. 16.—The body of a man was found hanging to a limb of a tree eight miles east of this city, and doctors say it must have been swinging in the wind and weather since Aug. 30. Indications point to suicide, as the noose was made of strips of handkerchief and other pieces of cloth. The man wore a suit of light clothing. From papers found on the body the remains are supposed to be those of James Cross of Toledo, O.

ANGEL INTERVIEWED

Says the Powers Must Act Vigorously in Crete—The Sultan's Prestige.

London, Sept. 17.—The papers here publish an interview with the retiring United States minister to Turkey, Dr. James B. Angell, who is a passenger on the White Star line steamer Teutonic, for New York.

Dr. Angell expressed somewhat despondent views as to the condition of Crete. "The powers," he said, "must act vigorously. In any event they will find they have hard work before them. The Sultan is an acute and determined man, who has acquired extraordinary prestige with his people since the Turkish-Grecian war. Turkey will desperately resist giving up Crete. America has no interests there save those of humanity."

MURDERED.

Woman Kills a Streetcar Man and His Child and Suicides.

Louisville, Sept. 16.—Joseph F. Villier, age 26, a streetcar motorman, his 2-year-old child and a woman named Nellie McGuffin were found dead in a room in the Enterprise hotel. From notes left by the woman it was learned that she had first given Villier and his child morphine in sherry wine, but, fearing this would not be effective, had shot Villier through the right temple and then turned the revolver upon herself, death being instantaneous in each case. The child was already dead from the effects of the drug. Villier was a widower, the child being that of his late wife. The woman was a domestic who had once been employed by Villier.

Real Extent of the Havoc Wrought by West Indies Hurricane Unknown.

London, Sept. 16.—The dispatches received at the colonial office from the British authorities in the West Indies indicate, as a whole, that the earlier reports of the havoc wrought by the hurricane were not exaggerated. They show widespread devastation.

Owing to the breakdown of the telegraph and telephone systems, the real extent of the disaster is still unknown, but financial aid is required to meet the distress.

Fatal Result of a Runaway.

Maysville, Ky., Sept. 16.—Mrs. Nathan Wheatley was thrown from a buggy in a runaway near Sardis, this county, and almost instantly killed. Her husband was slightly injured, but her 6-month-old babe escaped unharmed. They were on their way to a funeral, when the harness broke, causing the distressing fatality.

Horses, Hogs and Sheep Cremated.

Richmond, Ind., Sept. 16.—A large barn on the farm of Joseph King was struck by lightning yesterday and burned. A large quantity of farm products were consumed, and several horses, hogs and sheep were cremated.

ANNOUNCEMENT FOR CLERK.

JAMES W. LEWIS, of Vernon township, is a candidate as a republican for county clerk on the fusion ticket hereafter to be named.

D. W. RAPP, of Redding township, is a candidate as a republican for county clerk on the fusion ticket to be named September 17.

FOR SHERIFF.

B. C. Lett, of Hamilton township, is a candidate as a republican for sheriff of Jackson county on the fusion ticket to be named September 17th.

THERE seems to be little doubt about the nomination of Colonel Roosevelt as governor of New York.

THERE is one thing to be said in favor of Leader Joe Bailey of the Democratic minority. Under his astute management it will continue to be a minority.

THE majority of the next House of Representatives will not be composed of men who shouted to bring on the war with Spain and then voted to impede its progress.

SINCE so many provisional governments and self-styled republics are springing up in Cuba it seems doubly fortunate that the United States did not begin by recognizing one that could not be found.—Journal.

THE republicans of Indiana are just beginning a campaign that will result in another triumphant victory for the party in November. The people have learned to appreciate republican control in state and nation.

THE democratic politicians never expected to be satisfied with the conduct of the war. They were not satisfied with the result of the civil war. Their dissatisfaction however is their chief characteristic.

IF THERE is any religious discrimination in Columbus that is not permitted to worship in that city such denomination will be welcomed to Seymour where the constitution of the United States which guarantees religious freedom is in full force.

THE middle-of-the-road Populists have at last verified the charge made by the Republican managers in 1896 that they were not in favor of free silver, but were working for the issue of fiat paper currency. Now they have shown their purpose in the platform just published. There is not much hope for the white metal in what they say, but all hope seems to linger around the fall legal-tender greenback, once known to be worth but 34 cents on the dollar.

WE HAVE heard the soldiers of the civil war tell of their hardships but we have never heard their complain of their government. They went into the army and accepted the hardships as a result of the war and camp life. This patriotic spirit of the Union soldier has been most commendable, and he has done more than anything else to give him the place of honor that he has held for thirty years. To be sure the democratic party in 1862 and in 1864 complained of Lincoln as it is now complaining of McKinley, but the soldiers who can not believe that the soldiers now returning from the Cuban war are less patriotic. We believe when they return to their homes they will resent the unpatriotic cry of the democratic partisans, as the Union soldier resented the same thing in 1864.

POLITICAL BREWERY.

Hon. Albert J. Beveridge will open the campaign in Marion county tonight.

Isaac Smith, of Freetown, candidate for sheriff, was here today in the interest of the candidacy.

Tonight at 7:30 o'clock at Armoir Hall delegates to the county convention will be selected. Let there be a large attendance.

Hon. W. D. Bynum has resigned the chairmanship of the sound money democrats' national organization, but has not surrendered to the free silver forces.

A North Vernon special says that a petition is being circulated in Jennings county requesting the State Board of Election Commissioners to place on the ticket the name of a Prohibition candidate for Congress in the Fourth congressional district. The petition contains the names of several ardent Democrats, and a Democratic scheme is evidently on foot to get the name of a Prohibition candidate on the ticket, with a view of furthering the interests of Representative Francis M. Griffith. The holder of the petition stated that similar petitions were being circulated in each county of this district.

THE sentiment that prevails here and in nearly every township of the county is against the "official" ring, that has so dominated the affairs of Jackson county.

THE position taken by the Seymour News is not in accord with the best interests of the taxpayers of the county. The sudden conversion of our esteemed contemporary certainly can not be regarded as miraculous.

EVERY citizen of Seymour and Jackson township should, if possible, be at the township convention tonight and take part in the selection of delegates to the county convention to be held here tomorrow.

Redding Township Convention.

There were over a hundred in attendance at the Redding township convention this afternoon. W. H. Shields was the chairman and W. H. Rapp, secretary. They selected a full quota of delegates for the convention tomorrow.

GOES TO JENNINGS.
The suit of Ross Jerrell against the city has been venue to Jennings county on the motion of City Attorney Lewis.

FORMER PASSENGER.
The REPUBLICAN received a letter today from Dr. M. F. Gerrish, a resident surgeon on the 161st Indiana, now at Panama Park, in which he speaks of the health and welfare of the Indiana soldiers, who bear the distinction of being the banner regiment of the 7th army corps. The health of the boys of the 161st is being carefully guarded.

DEATH.
The babe of Rome Mitchell died Thursday night at 10 o'clock, September 15, with whooping cough, aged one year.

A four-year-old son of E. Mathews, of Newry, died at 8 o'clock Thursday night, September 15, 1898, of diphtheria.

A Highly Priced Picture.

J. D. Thompson, who served through the civil war in the 39th Indiana Infantry, and 8th Indiana cavalry and was commissioned first lieutenant has a picture of himself, and Geo. D. Wriggles, 2nd lieutenant, taken at Indianapolis in April 1864, when they were home on a furlough. Mr. Thompson prizes the picture very highly. Although he had served three years in the war he was but 19 years of age and was first lieutenant of his company. He was six feet, an inch and three quarters in height, but the second lieutenant as shown in this picture was six feet and three inches tall. Peter Taskey, of this city is another one of the tall men, who served in the same company.

C. Hornady, of McEwen, Kans., who attended the G. A. R. encampment at Cincinnati and has since visited the home of his boyhood in Ohio, was here today. Before going home he will visit old friends at Hope where he resided when he enlisted in the 67th Indiana during the civil war.

AN ECONOMICAL ADMINISTRATION.

A Statement Showing How the Taxpayers of Indiana Have Profited by Judicious Business Methods Under Directions of Republican Officials.

There are three state offices that turn into the treasury of the people a large amount of fees, a great portion of which under Democratic rule and Democratic juggling went into the pockets of the officers themselves. Four years ago the people stopped the system of officials getting rich quickly by putting the Republicans in power. They said a reasonable compensation by straight salary, about which there can be no twisting and turning of legal phraseology, is enough. That is now the law, and under it every cent of collections from whatever source is paid into the state treasury, and the officers receive no more than their salaries, which were fairly increased in a small degree to offset their deprivation of fees. Time and again the people asked Democratic legislatures to do this for them. However, it was not until 1891 that they made anything like an attempt to enact a fee and salary law, and that attempt was one to do an apparent good that Democratic officials elected a few months before, but all of whom had not as yet gone into office, might get rich through the old way of retaining a large per cent of collections for their own use and benefit.

The officers referred to in this connection are those of secretary of state, auditor of state and attorney general. By Democratic favor at the expense of the taxpayer each got a small salary and plenty of fees, by Republican justice each gets a reasonable salary and no possible chance to pocket 1 cent of fees. What is the result? The getting rid of an abuse that the people long groaned over, and by which men went into office poor or comparatively well-to-do and went out of office with pockets full of the greenbacks that Republican officials are turning into the state treasury, where they belong.

There is nothing like comparison to reach the meat of a proposition that it is better to pay an official a good straight salary than to pay him a small salary with the privilege of appropriating a per cent on everything that permits the charging of a fee. When flush times prevailed in Democratic days for state officers the secretary of state's salary was only \$3,500. That is what the fee and salary law enacted by a Democratic legislature said it should be, but it did better by that officer than the casual reader knows. The law, after making a pretentious show of reforming an evil by saying that the fees and amounts taxed in the secretary of state's office shall not belong to or be the property of that officer, but shall belong to and be the property of the state, comes down to business in making things right with the officer. It did it in this way, but the privilege occurred in a very obscure section and was likely to be overlooked by everyone except the secretary of state. A clause in the section permitted that officer to retain for his services for making the prescribed collections 10 per cent, "and the same per cent upon all other fees and charges collected under this or any other law." So the secretary of state had no cause to mourn the reform spirit that placed his salary at \$3,500 and allowed him to collect a 10 per cent fee for his own profit on everything that came into his office. The same section applied to the auditor of state.

This law was supposed to do away with the abuses of retaining fees under the old system, but just before it was enacted Democratic state officers had been elected. Democratic legislators did not think it right to subject them to sacrifice of a single penny they expected to get when they became candidates, so far as the state officers were concerned they tacked onto the law a section that the officers elected in 1890 "shall not be subject to the provisions of the act during the time he holds his term of office" and, further, "he shall receive the compensation now prescribed by law the same as if this act had not been passed."

The secretary of state, auditor of state and attorney general of that time were thus richly endowed, and neither is now complaining of hard times. It was a good thing they had, but the Republicans wiped it out in the interest of the taxpayer.

An example is given: The last year of his office the last Democratic attorney general was paid altogether \$33,139, of which \$2,500 was salary, the remainder being fees. That was a very close average of what he received each year of his two terms of four years, making in all about \$132,500. When the Republican incumbent goes out of office in November he will have received only his straight salary of \$7,500 a year, or \$30,000 in all, a difference in favor of the Republican economy of more than \$100,000.

The last Democratic secretary of state and auditor of state had average yearly compensations in fees alone of about \$12,000 and \$25,000 respectively. When the Republican incumbent of the latter office retires next January he will have drawn from the state treasury \$30,000 as four years' salary. He will not have made a dollar more out of the office. His Democratic predecessor got \$16,000 in four years from fees and salary. There, too, is a big saving to the people of \$86,000. The Republican secretary of state will go out in January, 1899, after a 4-years' service, with only his salary of \$6,500 a year, or \$26,000 in all, to compensate him, and the Democrat that was in the office before him got out of it altogether about \$60,000, a saving by the Republicans of \$34,000.

Summarized, \$230,000 has been saved to the state treasury through these three offices in fees and salaries. That is the kind of government the Republicans have given the people of Indiana.

Too Hasty a Honey-moon.

In the Alps the other day a bride lost her footing and fell over a precipice; the husband immediately jumped after her. This shows the folly of taking a honeymoon tour immediately after marriage. If that couple had been married a year or two, one of them would have been saved.—Times Herald.

The Blish Milling Company and some other local grain dealers are paying two cents more per bushel for wheat today than yesterday. There was quite a flurry in the Chicago market yesterday.

Never was there a season more propitious for advertising than this. Make the temporary thing permanent by exploiting the fact that your goods are a little better and a little cheaper than your competitors'; that where it is convenient to buy now you will make it convenient to trade always. Such a state of affairs has been the turning point in the history of many a business venture, and the man who has foresight enough, then and there, when money is easy, and fickle fortune dangles playfully with him, to emblazon his firm's name and his firm's goods on the eager horde of consumers, has turned a fleeting benefit into a permanent trade that must logically lead to steadily increasing success.—W. P. Mayer, in The Nation's Industrial Review.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition my skin was almost yellow, eyes sunk in tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying 'Electric Bitters' and to my great joy and surprise the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they saved my life, and robbed the grave of another victim. No one should fail to try them. Only 50 cents per bottle at W. F. Peter's drug store."

Badly Scalded.
Yesterday evening, Walter, the six-year-old son of William Bauermeister, in company with Ben Parker, who is a little older, went around to the Woolen mill to pick up some straps that are frequently thrown out there. While back of the mill Walter stepped into a vat of almost boiling water, which serves as a kind of reservoir and catch basin for water from the dying department of the mill. He went almost to his waist burning his lower limbs very badly. His left arm was also severely burned. He was lifted out of the vat by the Parker boy and taken to his home. Dr. Kyte was summoned and rendered all the aid possible, yet the little fellow suffered intense pain but it is believed he will recover. He has a high fever today.

"Francis Marion Lee."

Major C. W. Lee, republican candidate for congress in this district, passed up to Indianapolis last night. He expects to be in this county possibly the greater part of the coming week. The major relates a funny incident that occurred a few days ago at an O. D. Settlers' meeting at Marblehead, in Ripley county. Both Mr. Lee and Mr. Griffith were present to speak. It came Mr. Griffith's turn first, and Collins Wildman chairman of the meeting, introduced Mr. Griffith as "Francis Marion Lee." Without noticing his error he sat down and Mr. Griffith went on with his speech.—Columbus Times.

Deafness Cannot be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have an annoying sound or imperfect hearing and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
